1. **Guest Speaker:** Dr. Jenay Robert, EDUCAUSE

   AI in Higher Education: Creating our Preferred Future

   The current and future roles of artificial intelligence (AI) in higher education are active areas of research for EDUCAUSE and its members. In this session, you will become familiar with recent EDUCAUSE research related to AI in higher education, learn about current trends expected to impact the future of AI, consider your institution's preferred future of AI use, and learn about EDUCAUSE resources designed to help you achieve your preferred future. This session will also include a "sneak peek" at the results of the first EDUCAUSE AI Landscape Survey, conducted in November and December 2023.

   Jenay Robert is a senior researcher at EDUCAUSE. Her areas of interest include the future of education and work, equitable and inclusive education and work, social and cultural influences on teaching and learning, and ethical data practices. Jenay holds a Ph.D. in Curriculum & Instruction from The Pennsylvania State University.

2. **Open discussion**

3. **Future meetings of interest**
   Next meeting: Tues, Jan 30th (230pm) Guest Speaker: Afia Tasneem, EAB
