Committee Reports/Updates/Discussions

7. [NDSCS Campus Presentation](#) – Mr. Keith Johnson
 - a. Mr. Keith Johnson shared information on policy and law. Johnson shared that NDSCS supported HB1241 Funding Innovation Grant during the last legislative session and that it would be a great opportunity for workforce education. NDSCS supports the current funding formula; its methodology makes sense and assists with planning for future enrollment. Enrollment is steady at NDSCS and dual credit is increasing, which increases their headcount.
 - b. Mr. Keith Johnson shared information on NDSCS's industry partners. These partnerships and equipment are invaluable.
 - c. NDSCS's Foundation has experienced a 430% growth over the last 20 years. NDSCS will be developing a new strategic plan and guiding statements to lead the institution forward.
 - d. NDSCS has a 97% placement rate and a 70% student retention rate.
 - e. Mr. Keith Johnson shared information on various areas of concern including pressure from multiple "free tuition" promises, dual credit concerns, inability to withhold transcripts, and the ability to keep up with deferred maintenance needs.
 - f. Mr. Keith Johnson provided an update on NDSCS's Capital Project. NDSCS was awarded \$19.9 million to update the Precision Ag program.
 - g. Mr. Keith Johnson shared information on how NDSCS has reduced costs and remains fiscally viable. Strategies include restructuring staff positions and allowing departments to be fiscally flexible.
 - i. Member Biller asked about tier funding and how many tier funding opportunities NDSCS has engaged in during the last 5 years. Mr. Keith Johnson shared that NDSCS attempts to utilize tier funding to its fullest extent each biennium.
 - ii. Chair Black asked what industry partners are asking for. President Flanigan shared that industry partners are requesting more students. The Diesel program has a number of strong national and international partners, but other programs do not have such robust partnerships. President Flanigan shared that state level programs, such as Career Builders, help to build NDSCS partnerships.
 - iii. Chair Black asked if there are other institutions in the Midwest that are comparable to NDSCS. President Flanigan shared that Lake Area Tech and Mitchell Tech in South Dakota and Alex Tech in Minnesota are comparable.
8. [LRSC Campus Presentation](#) – Ms. Joann Kitchens
 - a. Ms. Joann Kitchens shared data on student success. LRSC's graduation rate is 50% which is above the national average of 36.4%; LRSC's retention rate is 65% which is above the national average of 61%; LRSC's placement rate is 96%; LRSC's completion rate is 82%.
 - b. Fall headcount was at 1810 and FTE was at 858.
 - c. LRSC was selected as one of the 150 institutions eligible to compete for the \$1,000,000 Aspen Institute Prize for Community College Excellence. Ms. Kitchens shared the prize winner will be named in the spring of 2025.

- d. LRSC's composite financial index is 3.96. It's difficult to have a profitable bookstore; LRSC strives to find cheaper options for students such as digital or open source education resources.
 - e. LRSC would like to increase pay ranges to stay competitive with public schools and colleges; however, the budget has not allowed for such. LRSC's goal is to have staff at 90% of their market goal and directors and administration at 85%. Ms. Kitchens shared that the labor shortage has made it difficult to hire staff and some open positions have remained open for up to 6 months.
 - f. LRSC's new Hofstad Ag Center houses the Precision Ag program and is also used for farming related community events. Parking was not part of the original request but has now become a real need.
 - g. Ms. Joann Kitchens shared that LRSC did not receive capital project funds in the last legislative session but were allowed to use Tier III money from the 21-23 biennium and the 23-25 biennium without a match to pay for wind turbine gearbox repair and parking needs. The gearbox repair cost \$650,000. LRSC also had to absorb lost wind turbine revenue and extra utilities during downtime. The remaining \$430,000 in Tier III money will be used to fix parking needs; however, there is approximately \$1,000,000 in repair needs in addition to the need for \$500,000 to add parking to the Hofstad Ag Center. New initiatives include apprenticeships and the addition of men's and women's hockey.

 - iii. Chair Black requested feedback and expansion on dual credit. President Darling expanded on LRSC's dual credit data and the impact of other institutions being able to offer dual credit in the same region. In order to have a successful dual credit program, the courses need to be the same as the one that's delivered on campus, and it must be taught by a high-quality qualified instructor.
 - iv. Member Biller asked how many Aspen Grants are awarded. President Darling shared that one first place prize is awarded and the top 10 will receive smaller prizes.
