DSU = Dickinson State University

MASU = Mayville State University

MISU = Minot State University

VCSU = Valley City State University

NDSU = North Dakota State University

UND = University of North Dakota

Methodology

Program enrollment data presented in this report represents North Dakota University System (NDUS) student program enrollment during Fall 2019 academic term.

Program enrollment data is generated from the Campus Solutions student reporting system, using the NDUS Enrollment Report (Report NDUH2SRK – Compliance Report). This report produces a csv file of all students by program enrolled, with corresponding program Classification of Instructional Programs (CIP) code. Enrollment Report data was aggregated at the NDUS system level, filtered by undergraduate and post-baccalaureate level, and disaggregated by CIP code.

Data is presented in this report in two sections. The undergraduate section (pages UG-1 – UG-9) accounts for the 38,694 students enrolled in NDUS in Fall 2019 academic term. The graduate section (pages GR-1 – GR-9) account for the 6,244 graduate and professional level students enrolled during this same term. In total, 44,938 student enrollments are represented in this report. A summary table is presented in Table 1.

Program enrollment data accounts for student enrollment in a program at each institution of attendance. Although program enrollments counted in this report are unduplicated, students who enroll at multiple institutions are counted at each institution, producing a duplicated student count.

CIP and SOC Codes

All NDUS academic programs are categorized by unique CIP codes. Each CIP code has a corresponding program description. The CIP code taxonomy is maintained by the National Center for Educational Statistics (NCES) in the U.S. Department of Education. CIP codes consists of 48 academic categories, and each academic program is represented by a unique six digit CIP code. A complete list of CIP codes is available at:

<https://nces.ed.gov/ipeds/cipcode/resources.aspx?y=55>

The Standard Occupation Classification (SOC) is used by federal agencies to classify workers into occupational categories. Similar to CIP codes, each SOC code has a corresponding occupation description. The SOC code taxonomy consists of 23 major groups, and each occupation is represented by a unique six digit SOC code. A complete list of SOC codes is available at:

<http://www.bls.gov/soc/home.htm>

This document does not present the equivalent SOC codes for each program CIP code. The relationship between CIP and SOC codes is many-to-many, that is, one CIP code may correspond to many SOC codes, and vice versa. The *CIP 2010 to SOC 2010 Crosswalk* document is available on the NCES website to view the relationship between CIP and SOC coding:
